SPRING MEETING NOTICE

Mark your calendars for Tuesday, April 23rd for our annual spring meeting at the Assumpink Wildlife Area near Wrightsville, New Jersey. The topic is "Tools for Fisheries Scientists" and will be conducted as a workshop with an interactive format. This is a chance to catch up on the latest in fisheries research technology. There will also be an optional field trip by Barnes and Williams to demonstrate sonic tagging.

The registration fee of \$7.50 includes coffee, donuts, bagels and lunch. If you are bringing your own lunch or making alternate plans, then there is a base registration fee of \$1.00.

As always, the meeting is a good chance to converse with your fisheries colleagues. Please plan to attend.

The program will include the following workshop demonstrations:

in no certain order

John Clark, DE Div. Fish & Wildlife: "The application of hydrolab units to collect time-sequence water quality data"

Mike Greco, DE Div. Fish & Wildlife: "Using an electronic measuring board: field to computer"

Edna Stetzar, DE Div. Fish & Wildlife: "The use of a sonic digitizer and computer software for scale measurements and population analysis."

Dr. Uwe Kils, Rutgers University: video

Andrew Tate, University of Delaware: sonograms

Stacy Hagan, Rutgers University: "Pop net: a tool for collecting small pelagic fish in the estuary"

John Menezes, Son Analyst Inc.: fish detractors

Richard Stephens, American Fisheries Society: internet

Robert Williams, Barnes & Williams: sonic tagging
